WORK EXPERIENCE

Business Analyst, Accenture — Aug 2025 - Present

- **Gather and analyze client requirements, translating business** needs into functional specifications and solution requirements.
- Design end-to-end business workflows and p**rocess diagrams, presenting proposed solutions to client** using Draw.io and Microsoft Visio.
- Develop user stories, maintain functional documentation, and **track requirements through RICEFW trackers, ensuring alignment with technical deliverables.**
- Support SIT and UAT by preparing test scenarios and scripts, validating functional requirements, **documenting test results, and tracking defects**. Perform SQL-based data analysis using DBeaver for **report validation and data accuracy checks**.
- **Leverage AI tools, including Copilot and Copilot Agent Builder,** to streamline business analysis, generate test scripts, optimize SQL queries, and enhance presentations. Manage requirement tracking, project documentation, and client deliverables using Excel and Word.

Data Analyst Intern, Shoppers Stop Ltd. — May 2024 - Sept 2024

- **Achieved an 45% reduction in process time by automating daily and monthly business tasks** and migrating analytical models to GCP (using Python and SQL).
- **Optimized data workflows** by converting JSON-based ETL pipelines to SQL procedures in BigQuery.
- Analyzed IT ticket data to **identify major issue trends and developed dashboards on Power BI** to track customer interactions for newly launched websites.
- Worked with **GenAI model (Vertex AI) to generate customer summaries** for personal shoppers.

UI/UX Developer Intern, EduIsFun Technologies Pvt. Ltd. (STEPapp) — May 2023 - June 2023

- Designed, developed and **revamped websites (using Figma, Wix and Elementor), improving their navigation, experience**, and adaptability.
- Created **brochures and banners** (using Canva) for marketing campaigns on different platforms.
